## Year 5 WEMG Course

Year 5 WEMG course has undergone updates to its curriculum. It demands a significant weekly commitment to aid students in establishing a sturdy foundation for the placement exam.

The writing module instructs students on the most effective methods for organising writing structure, with an emphasis on developing critical thinking and reasoning abilities. English lessons concentrate on reading proficiency and practice with reading comprehension and multiple-choice questions. The mathematics lessons are crucial for students to comprehend mathematical theories, principles, and formulas, allowing them to solve problems with ease. The general ability module offers a range of practical, challenging, and mind-stimulating questions in problem solving and critical thinking.

Students have the option to select one of the following WEMG courses based on their individual needs:

## Year 5 Writing for Selective

### Are you ready for the challenge of the Placement Test Writing?

Success in this exam requires more than just good grammar—it demands the ability to think critically, argue logically, and adapt instantly under pressure.

Our new **Year 5 Writing** course is specifically engineered to bridge the gap between good writing and exam excellence. We focus on the two foundational pillars of success: **Narrative** and **Persuasive** mastery.

Students learn essential writing skills through the most frequently tested formats, including news reports, diary entries, reviews, advertisements, and advice pieces.

### Term 2 Roadmap

Each week targets a high-frequency writing form to build versatility:

Week 1: Story	Week 4: Explanation	Week 7: Advertisement	Week 10: Speech
Week 2: Diary Entry	Week 5: Advice Sheet	Week 8: Persuasive	Week 11: Discussion
Week 3: News Report	Week 6: Review	Week 9: Letter	

### Our Secret Weapon: The "One Topic" Method

Unlike traditional courses that jump between random subjects, we use one central topic to explore all writing forms. This unique pedagogical approach offers distinct advantages:

- **Form Shapes Thinking:** Students learn that changing the format changes the mindset. A story captures emotion, while a news report demands clinical objectivity.
- **Cognitive Efficiency:** By keeping the topic constant, students don't waste energy "inventing" new ideas. Instead, they focus entirely on mastering the structure and tone required.
- **Separating Fact from Feeling:** We teach students how to isolate emotion, opinion, and evidence—ensuring they never accidentally include personal bias in an objective task.
- **Exam Agility:** Students train their brains to switch writing styles instantly—an essential skill for the CBT.
- **Why it works:** Because examiners reward strict adherence to form, this method makes correct structure second nature.
